Dear Harold,

Thank you for the thoughts and info in your recent letter vis-a-vis Jim Garrison, Hank Lane, etc. What a mess. Sometimes I wonder if we will ever see The Truth really come to light. One would devoutly hope so. I notice that Epstein has launched another crusade against Garrison. The New Yorker have not read it yet but intend to. It appears that Epstein is playing both sides of the street.

When I asked you to send some summer weather along to me you didn't intend that you should send "quite so much all at once". Man alive, has it been torrid - record-breaking temperatures the first of last week?

The political pot-boils and bubbles with toils and troubles - doesn't it. Shouldn't a Nixon-Humphrey choice be a death-worse-than-fate?? And then George Wallace casts a longer shadow daily. Wilson what I read and hear. Our only hope is in my judgment a coalition ticket with any two of McCarthy, Ted Kennedy, Lindsey and Rockefeller in my order they draw out of a hat. The Chicago Convention should be hot stuff in more ways than one. I'd sure like to be there.

How's your new house? All in order now? Are you working on another book? If so, Give my best to Gillian and take care of yourself.

Sincerely,

*A. B.*
